

The Bulgarian Federation is interested in holding the World Championship in Class A/B in 2026. We hope that the conditions for supporting the financing of the sections by NAVIGA will not change.

The proposal was approved by the leader of Section A/B, Mr. Shahazizian. Please submit our proposal to the NAVIGA General Assembly and if it is approved, we will send regulations for the championship.

Given that the activists of the Pazardzhik club / where the A/B championships have been held recently / are competitors in classes M and NS, we will wait to see the dates of the future world championships in these two classes in order to synchronize the date of our championship.

For now, our federation has no other proposals to the General Assembly and we will await its outcome.

Best regards

Evgeni Genov

President of the BFKS
